SAN ANGELO COMMUNITY MEDICAL CENTER EARNS AN EXCELLENCE
THROUGH INSIGHT AWARD FOR OB/GYN PATIENT SATISFACTION

San Angelo, Texas, February 4, 2010 – San Angelo Community Medical Center was recently recognized with an Excellence through Insight award for “Overall Inpatient OB/GYN Patient Satisfaction” for medium size hospitals by HealthStream Research, the research business group of HealthStream, Inc. (NASDAQ: HSTM).

San Angelo Community Medical Center was awarded this honor for its commitment to excellence in patient care. San Angelo Community Medical Center was chosen for receiving the highest ratings in OB/GYN patient satisfaction from among HealthStream Research’s clients, as well as exceeding industry standards. To qualify for an award, a hospital must have been a patient satisfaction-tracking client of HealthStream Research in 2009, scored in the 75th percentile or higher, and surveyed a minimum of 100 patients.

“We are very proud of our accomplishments” said Cecil Jameson, Chief Nursing Officer. “These are not easy goals to achieve. It is proof that our great staff whose compassion and care is apparent in the excellent care they provide.”

Commenting on the awards, J. Edward Pearson, president of HealthStream Research, said “We applaud San Angelo Community Medical Center’s high-level commitment to excellence in healthcare—and we are pleased to recognize their achievement through our presentation of an Excellence through Insight award.”

A formal presentation of the award will be made during HealthStream’s customer Summit 2010, May 17-20, 2010 in Nashville, Tennessee.

About HealthStream

HealthStream (NASDAQ: HSTM) is a leading provider of learning and research solutions for the healthcare industry, transforming insight into action to deliver outcomes-based results for healthcare organizations. Through its research products, healthcare executives gain valuable insight about patients' experiences, workforce challenges, physician relations, and community perceptions of their services.
